SUMMARY

A Computer Science undergraduate with strong foundations in Programming, Data Structures, and Machine Learning. Experienced in developing AI-based applications and full-stack projects. Skilled in building predictive models, working with cloud databases, and participating in competitive coding challenges. Passionate about problem solving, UI/UX design, and applied AI research.

EDUCATION

BSc Computer Science

Aditya Women's Degree College (Affiliated to Andhra University)

CGPA: 8.79/10 | 2024 – 2027

Intermediate(MPC)

Sree Acharyaa Junior College

88.4% | 2022 – 2024

SKILLS

Programming:	C, Java, Python, SQL, HTML, CSS
Machine Learning:	Neural Networks, Supervised Learning, Model Evaluation
Technologies:	Firebase, MySQL, GitHub, AWS Cloud Computing
Libraries:	TensorFlow, Pandas, NumPy, Scikit-learn, Matplotlib
Tools:	Visual Studio, Figma, IDLE, Streamlit
Core Concepts:	Data Structures & Algorithms, Object-Oriented Design, Operating Systems, Problem solving

PROJECTS

LuckyBus — Real-Time College Bus Tracking App

Tech Stack: Kotlin, Firebase, Google Maps API

- Developed Android application for real-time bus tracking using GPS
- Implemented live location updates and ETA predictions

Prescription Analyzer — AI-Based Medical Prescription Analysis System

Tech Stack: Python, TensorFlow, Streamlit, NumPy, Pandas, Pillow

- Developed a machine learning-based system to analyze medical prescription data using a Kaggle dataset
- Performed data preprocessing and feature extraction using Python libraries
- Built a simple web interface to upload and analyze prescription data using Streamlit

RESEARCH WORK

AI & ML Research — Prescription Analysis System (In Progress)

- Conducting research on applying machine learning techniques to analyze medical prescription data
- Developing and evaluating ML models using Python-based libraries for prediction and analysis

ACHIEVEMENTS

- 1st Place — UI/UX Hackathon (College-Level Selection)
- 1st Place — HTML & CSS Hackathon (2024–2025)
- Semi-Finalist — Voyage Hackathon 3.0(2025)
- Research Paper Shortlisted — AI & ML Project (Prescription Analyzer)
- 418th Rank — CodeQuezt #27 (14,445 participants)

CERTIFICATIONS

AI & ML Certification – ULearn
Python for Data Science, AI & Development – Coursera
Python – Cisco Networking Academy
C Programming – Cisco Networking Academy
HTML & CSS – Coursera
